Notes:

The total quota reflects pounds available for landings in states with quota. States with negative allocations have zero (0) pounds of quota available.

If negative late entries are present on this report, they are the result of corrections made to the database.

For the week ending **11-DEC-99**, 227 dealers held a federal summer flounder permit. Of those 227 dealers, 160 (70%) have submitted a weekly quota report for the current reporting week. Because Massachusetts dealers submit weekly quota reports directly to the state, they were not included in these calculations.

These data are the best available to NMFS when this report was compiled. Data are supplied to NMFS by dealers and/or state agencies and may be preliminary. Data supplied by the State of Massachusetts are as of November 27, 1999.

The following summary is updated as information is received, and may not reflect recent state actions. Readers are urged to contact the appropriate state agency for further information.
